

## AVOCADO

### HOW AVOCADO GROWERS CAN BENEFIT FROM FEEDING SOIL MICROBES

Healthy soil is vital to grow healthy crops of avocados.

PhycoTerra® soil microbe food invigorates growth of beneficial soil microbes required for optimum soil health.

The vital interaction between beneficial soil microbes and the nutrients available in soil increases the availability of nutrients for crops.

Watch plants respond with improved crop establishment, greater crop uniformity, improved resiliency under stress situations, improved crop quality and yield.

### PHYCOTERRA® RECOMMENDATION FOR AVOCADO CROPS

Apply PhycoTerra® products at the following timepoints by drip fertigation along with standard fertility programs.

PhycoTerra® can be tank mixed with standard fertilizers or crop protection products.

It's always best to conduct a jar test with all your tank mix ingredients prior to mixing an entire load.

Shake containers and mix totes well prior to use. In finished tank solutions, maintain constant hydraulic or paddle agitation.

### APPLICATION RATES & TIMINGS

- Early Spring – apply at 3qts/acre
- Late Spring - apply at 3qts/acre
- Mid-Summer - apply at 3qts/acre
- Late Summer/Early Fall - apply at 3qts/acre

**PhycoTerra® is compatible with CAN17 when applied within 24 hours of blending. We highly recommend the application of PhycoTerra® whenever CAN17 is used.**
